AutoCAD Webcast Series

You're Invited to Experience the Possibilities with the AutoCAD 2008 Webcast Series

AutoCAD® 2008 software has powerful new features to help simplify everyday tasks and increase productivity. Join technical product expert Heidi Hewett in this free two-part webcast series and find out how the latest AutoCAD features can benefit you.

**Best Practices for Annotation Scaling, with Heidi Hewett
Tuesday, September 4th**

One of the most powerful new features in AutoCAD 2008 is annotation scaling. Automated annotation scaling and control of layers by viewport help minimize workarounds, while text enhancements, multiple leaders, and improved tables deliver unmatched levels of aesthetic precision. Join technical product expert Heidi Hewett for this informative session and find out how you can let AutoCAD 2008 do the work for you.
